DONATION IMPACT

The Hepatitis B Foundation has been the primary source of information and support for people living with hepatitis B for more than 31 years!

Your gifts help to:

- Perform informational consults for almost 10,000 people every year!
- Direct people living with hepatitis B and liver cancer to clinical trials.
- Test over 13,000 people a year for hepatitis B through our Hep B United Coalition.
- Advocate for increased awareness of hepatitis B in our nation's capitol.

The Blumberg Institute is the research arm of the Hepatitis B Foundation, responsible for fulfilling the promise of finding new therapies and improved methods of detection for chronic hepatitis B and liver cancer.

Your support goes a long way to help Blumberg Scientists do amazing things, including:

- Cutting-edge research for a hepatitis B cure, including SVP Inhibitors, CRISPR CAS, cccDNA, STING agonist, and interferon technologies.
- Breakthrough work on biomarkers for detection of liver cancer and other liver diseases, including non-invasive techniques!
- Development of two drugs that are currently in clinical trials due to the work of the Blumberg Institute!

The Pennsylvania Biotechnology Center (PABC), one of the nation's most successful life science incubators, has nearly 100 member companies and is home to about 50 companies.

Your gift helps make scientific history:

Partnering with the other nonprofits, the PABC has a unique culture of collaboration between scientists, entrepreneurs, academics and public health.

- Therapies, cures and medical devices ranging from oncology, to arthritis, to regenerative medicine are being developed.
- The PABC and Blumberg Institute together host academic programs ranging from high school to post-doc!
- The PABC boasts a "Wall of Fame" with eight scientists who have invented FDA-approved drugs!
